T. D. SMITH, Depy. Collector.

ROBACK'S BITTERS

Selected Miscellany.

—No sorrow taken of anonymous communications
Manuscripts should be written on one side only.

WHOM FIRST WE LOVE.

When first we love, you know, we squirm and
Time rules all; and life, indeed, is not
The thing we planned out ere hope was dead;
And then we were too young to know what to do.
Now we could be young which is hard to bear—
Many a girl away which it were sweet to keep
God help us all! who need indeed His care;
And I? I know, I know, I know.

My heart has been too bold to be true now;

I've given my king his earliest infant prayer;

He's his father's eager eyes, I know.

He's a boy, he's strong, and smiles upon my knee,

And I can tell his light breath come and go,

I think of one—Heaven help me pity me!

Who loved me when I was a boy ago,

We might have known all what I dare not think;

We're all changed; God judges for us best,

And trust in Heaven we shall.

These thoughts and me, In Heaven we shall know all.

A TERRIBLE ADVENTURE IN ICELAND.

Mount Hecla, on the island of Iceland, is slightly above sea level, and stands a little elevated above its base, and along its sides are numerous craters, the seats of former eruptions. The crater of the principal peak is about one hundred feet in depth. It is composed chiefly of basalt and lava, but slag-sand and ash, and obsidian is making its most remarkable products.

There have been forty-three eruptions of mount Hecla recorded within the last thousand years, five of which have been simultaneous with Vesuvius, four with those of Etna, and one with those of both.

The last eruption began September 2, 1855, and lasted nearly a year. On the 23d of November the torrent of lava, which had covered the crater, was a mile in width, and from 40 to 50 feet in depth.

Carl Steinman visited Hecla just previous to this terrible eruption, and had one of the narrowest escapes from a horrible death that ever fell an adventurous man.

We give his narrative in almost his own words:

On the next morning after my arrival at the small village at the foot of the volcano, I engaged a guide, a faithful, honest fellow, and set off for a visit to the noted crater.

From the very first it seemed as if I had passed the confines and was entering a new world, so entirely different was the scenery.

As you press upward toward the source of all the horror of burning stuf, you find the pell-mell desolation and desolation increases, until at length, when you stand on the topmost point of this burning hell of fire, you involuntarily give your heart to God, with a shudder of terror, to restore you to the great living world that you have left behind you.

For six mortal hours—three hours back and three hours front—I had been chafing and burning in the lower world, and now, among the clouds and mists that rolled around me, I stood in a world of lava mountains, ice and snow, the lava black as ink, the snow of dazzling whiteness—and in all the region the slightest brush, abysses and Stygian caves, which echoed only the sullen reverberations of thunder or the groans of the troubled earth beneath.

So impressive was this scene that I fell a strange chill creeping through me, and I shouted to break the horrible stillness which was more awe-inspiring than the thunders of the sky. I was quivering, and I myself unwilling that I was trembling, and I was only assured by pinching my limbs or conversing with my guide, that my heart did not beat.

Drawing my blanket around me to shelter me from the chilling atmosphere, and carefully puncturing the ground with my foot, I began to walk across the lava fields, and now, among the clouds and mists that rolled around me, I stood in a world of lava mountains, ice and snow, the lava black as ink, the snow of dazzling whiteness—and in all the region the slightest brush, abysses and Stygian caves, which echoed only the sullen reverberations of thunder or the groans of the troubled earth beneath.

As far as the eye could discern, there was a sweeping clouds afforded a view, a succession of peaks, and frozen streams, would descend life, the awful solitude of the earth—filled with gaping caverns, terrific abysses and Stygian caves, which echoed only the sullen reverberations of thunder or the groans of the troubled earth beneath.

Impressed was this scene that I fell a strange chill creeping through me, and I shouted to break the horrible stillness which was more awe-inspiring than the thunders of the sky. I was quivering, and I myself unwilling that I was trembling, and I was only assured by pinching my limbs or conversing with my guide.

Looked up and around to catch sight of my guide, but he was gone, and in my dire extremity, had sought his own safety in flight.

I had nothing to rely on but my wits.

There, over the mouth of a black and heated abyss, I was held suspended, a helpless and conscious prisoner, to be tortured by the next great three of burning nature.

"Help! help! help!"—for the love of God, I shrieked in the very agony of my despair.

Looked up and around to catch sight of my guide, but he was gone, and in my dire extremity, had sought his own safety in flight.

CONDENSED NEWS ITEMS.

Personal and Literary.
JOHN TYLER, Jr., son of the late ex-President, is lecturing.

ROBERT H. NEWELL (Orpheus C. Kerr) is dangerously ill in New York.

CHARLES SHORT, for the last four years President of Kenyon College, Ohio, has resigned.

Two copies of the newspaper contributions of Artemus Ward are to be issued by Carlton of New York.

IRA ALBRIGHT, gratifyingly announced as "the African Roscins," is coming to this country to perform next fall.

GEO. JO. LANE (formerly of Breckinridge and Lane) still lives, says the Oregonian, and is making a new dash at politics.

DR. JONSON in his dictionary describes a garret "a room on the highest floor in a house, and acocktail" as "the room over the garret."

TAR Prince of Wales is writing a book about what he saw in the United States. As he frequently saw double, the narrative will be interesting.

H. B. CLAFIN is said to purchase gold to the amount of \$100,000 each day, in Wall-street, New York, for the purpose of carrying out his schemes.

JENNY LINN's husband has written an oration entitled "Truth" for the coming musical festival at Hereford, in which Jenny will sustain a leading part.

BISHOP E. THOMPSON of the Methodist Episcopal Church, is about to start on a tour of the West, including Nevada, Oregon and possibly Idaho and Utah.

CINE METRO, a stand and family will return to this country next fall, passage for them having been engaged, in advance, on board the Scotia, which is to sail from Liverpool on the 2d of November.

HORACE GREENLEAF, poet laureate, son of William Ed. Haywood, and other physicians have issued a call for a meeting in New York July 4th, to discuss the foundation of a School of Social Science.

The *Bankrupt Reporter* is the title of a periodical soon to be established in New York, which, as its name indicates, will chronicle all the proceeding under the Bankrupt act which may transpire in the North and South.

JOHN SAVAGE HUNT, son of Ward Hunt, Jr., of Utica, has won a silver cup from the class of '64 of Hamilton College, by being the first father of a baby since the class graduated. He had eight other young men as competitors.

A STRIKINGLY ATTRACTIVE young man, who has himself become a locomotive in the Cleveland depot, a week ago, has been traced out, and found to have been William Woodward, of Tanton, Mass., who has spent several months in Adrain, Mich.

FOLYARD has heard Spurgeon preach and writes home to his "two papers, daily," that he "would rather be Charles H. Spurgeon, surrounded with the love of the resoled souls of the working people of the parish, than the Lord Bishop of a thousand churches of England."

The latest story of Bancroft and an outraged citizen, who is sold by a New York correspondent, may be founded on fact or fancy. The historian, as well known, roughly handled General Schuyler, Revolutionary fame. "Not long ago," according to a student, "Mr. Bancroft, of Columbia Hamilton, a grandson of Schuyler, and offered him his hand, which Hamilton refused, saying, 'I do not associate with slaveholders.'

ISAAC NEWTON, Comptroller of Artillery, died yesterday, was born in Burlington, N. J., on the 1st of March, 1850.

He was engaged in agricultural pursuits all his life, and at the time of his death was the owner of a farm in Delaware County, Pa. A. A. Atwater, of Newton, has appointed him Clerk in the Bureau of Agriculture, then under the protection of the Patent Office. In 1862 he was appointed to the position which he held at the time of his death.

Domestic Paragraphs.

The total Indian population of the United States consists of between 300,000 and 350,000 souls.

—There are now on the Kansas Pacific Railroad twenty-five good locomotives, and four hundred seven flat and freight cars.

An exchange says that there are thirty old bridges now at Niagara Falls. But are the bridges odd from eccentricity, or from having been abandoned by their groves?

The Postmaster General will, July 1st, establish in various parts of the country 200 new money orders. Post offices which will do so, will receive a weekly number.

The New York City Railroads converged in 1868 nearly a hundred millions of passengers' (\$9,907,620); an increase of over twelve millions from the previous year.

—Delano, who addresses the palette of New York, terms an income of \$300,000 "handsome," who addresses the upholsterer of the whole number 1,198.

—The Postmaster General will, July 1st, establish in various parts of the country 200 new money orders. Post offices which will do so, will receive a weekly number.

—David Clunie, of Sand Lake, New York, assigned all his property to his wife some months ago. Recently he wanted to "ocupy and possess" it again, on his own account, and their fight was on, but he was operating in Goshen, and took in the law.

—The vigorous blowing of the steam-engine, which has attracted a swarm of birds to the roof of a New York building, has been attributed to the fact that the birds were attracted by the noise of the engine.

—The sharper who sells greenbacks at a discount, and then sell jewelry and refunds the money paid for the same, a lot of \$5,000, and then take to prison to be confined for life.

—A gentleman, who was relating an accident he had met with in Cambridge from a fall, was asked by a surgeon if it was near the vertebrae that he had been hurt.

"No, sir," was the reply, "it was near the heart."

—The Boston *Advertiser* says that the "blacklegs" New England cars to the inconvenience of quiet travelers. A clergyman who seated himself in a smoking car found it almost impossible to rest his feet, and the porter who had to attend to him, said that he was an abandoned woman, especially as they are at hand.

—In Newcastle, Del., recently a colored man, who had killed his brother in a drunken rage, was publicly pilloried, then whipped with sixty lashes forced to pay a fine of \$1,000, and then taken to prison to be confined for life.

—A gentleman, who was relating an accident he had met with in Cambridge from a fall, was asked by a surgeon if it was near the vertebrae that he had been hurt.

"No, sir," was the reply, "it was near the heart."

GOOD NIGHT.

Good night! I have to say good night.
To such it is a gift of peaceful things!
Good night to you, my love, and
All quietly with its weight of sleep:
Good night to fond uplifted eyes;
Good night to lips that kiss the hair,
Good night unto the perfect mouth,
And all the sweets that nestled there.
I'll have to say good night again,
But there will come a time, my love,
When if I read your starsight,
I shall know where you are.
With my stars, "E'en then, good night!
You wish the time away? And I,
You would blushed yourself to death
To own a secret a year ago."
I'll have to say good night again.
—T. B. Aldrich.

A MINER'S LOVE STORY.

From Temple Bar.
Nelly Glover was the prettiest lass in the pit village. Her eyes were the sweetest blue, her hair the softest brown, and you might have thought her brown hair was of the finest silk. Then she had a figure like a fairy, it was so trim; and with a waist you could almost span. I loved Nelly, but, for all that, she was the most unloved girl in the community, and she might have had her pick of us. The worst of it was she treated us all alike, and wouldn't look at one more than another. She had a smile for everybody, and was always good to everybody. There was no one of us who could screw up courage to try her farther. I don't know how often I thought it over. It came into my head the first thing in the morning, and there it would remain the last thing at night, until it either kept me awake or had me half asleep. I would then take possession of me. No matter where I was digging, or blasting, or tunneling; above ground or down in the pit; my thoughts turned in upon Nelly, and from her I hastened to the surface, and hastened back to the pit. One morning there was no work in the pit for my gang, because the viewer wanted that part of the seam shored up, and it struck me all at once, that I would have out with Nelly, so I made up my mind to do it. I did it, and as it was a wager. You may think it was clever to chap to look at us who would even see—and I knew it! For all that, I began to walk about, and catch sight of Mrs. Glover's daughter, and fell in love at first sight. But, I went on, and I just got up to the cottage, when who should come out but Nelly herself. She never looked prettier than at that minute; but appearing so suddenly, she dashed my spirit, and I had a mind to say to myself, "What's the matter?" she cried, in a frightened sort of way. "Well, it is just this," I said. And there I stopped.

"Is anything wrong with Jack?" she cried quickly.

"Yes, he is down in the pit, and they say it is foul, which makes mother and me uneasy. You haven't heard anything?" And she looked in my eyes as if she would search me.

"No, I answered, standing, now that I thought I could comfort her. "He is all right. You mustn't mind what the old woman of the village says, or you'll be looking for a wife every day in the rear, with her mothering more than common."

"I haven't come to tell you about Jack; it's about myself."

She gave me another look now; then her cheek flushed up like a flame, and her eyes turned away.

"Do you know what I want to say, Nelly? I want on—" "I wish you did, for I can't tell you." It is more than I have got words for. How I love you, how you are always before me, how I am, erased and mad about you! But though I can't say all I want to, here I stand, and I would change with a king if you'll take me as I am!"

"Ah, Charley! you don't know how you pain me," she replied. "I can promise to mother and Jack, when we walked up the village at the funeral of my poor father and brothers, all three killed in the mine—great sorrow, which I can never think of without crying."

And the tears, it is true, were running down her cheeks, though, for the minute, she seemed to me to be harder than stone. And I seemed turned to stone myself. I had no recollection, no feeling, and, no sense, and I couldn't have even stepped to save my life. Then it was flushed up like lightning. I took a look at Nelly; dropped my head on my head on my breast, and, without a word more, walked out of the gate.

Our little golden looked bright no matter how the sun shone, and now I felt as if the sun would never shine again for me, so, as my eye fell on the line of cottages, with the clouds hanging down from above, and nothing round but a waste, I thought I must be in hell, and I must die to live here. Besides, I should always be meeting Nelly, perhaps lurking about her mother's cottage, and making her as miserable as myself. Why shouldn't I go away to Yorkshire, or Derbyshire, or to the diggings in Australia? I had a mind to move, and a good notion, nothing more, gave me a little spirit. It stirred my thoughts and I stepped out brisker, going straight home. I hadn't much to settle there, only to go good-by to the day I lived in, and I went out, pack on back, and began my tramp.

I stopped at the moor, and looked back, remembering I might never see the place again, and, dismal as I now thought it with its gaping walls and blackened roofs encumbering the blackened ground, I had been out all day, and had not even a single meal, but could open its door to me; not one where I wouldn't meet a friend. And there I had been born; it was the spot earth that, even in the hour of bitterness, I loved best, and I had a way with me, and I had come over my way.

I was walking on, when, suddenly, the air rang with a crash that shook the ground. I knew what it signified; such sound denote but one result in the black country, a broadside of gunpowder, which dated off to the pit, with the feelings that animates every miner on such occasions.

It didn't seem a minute before I came to the dust-heaps round the pit's mouth, but, some were there before me, and the off-men and the women were rushing up from the village in a streak. The smoke from the pit had cleared down, and come up, so I had to get my breath a little, when three or four of us crept on to the mouth and looked down. The explosion had destroyed the cage, making a stick of it. It had torn the sign-post, hence a means of communication remained for any one immediately below. As soon as I saw this, I set to work to rig a cross-bar, and presently had it ready.

"Just lower my gently," I said to two banksman. "I may pick up one or two, if they say no."

"You can't go down yet," cried the viewer. "How many are in the pit?"

"Half an hour ago there was fifty," replied the timekeeper; "but I am thankful to say that all came up but ten."

"And they are all lost," said the viewer.

"for there will be another explosion directly."

"I'll go down anyhow," I said, doggedly, "and if nobody will lower me, I'll jump down."

A good many were on the jeans now—men and women, and the women crying and saying—but when I spoke out that very there was a dead silence.

"Good by, Charley! God bless you, brave lad!" The banksman lowered me down, and I sank through the pit's mouth. The darkness was thick, and I had to hold on to the hand, so that I might signal to be hoisted up if the air became too foul. But I had no intention of going back till I had searched the pit, and seen if there was any alive. I had a mind to do this before I went up to the surface, and I had a mind to face the folks above without doing something so, I felt impatient that they lowered me at such a small pace, and I kept looking up and down, and I strained my eyes into the darkness below, and saw no bottom; I glanced up, and the gleam of light grew smaller and fainter. I scanned the walls of the shaft, and I noticed only their black boulders, and they appeared to be increasing density of glass, which began to affect my breathing, and, as I went on, I had to shift my face from side to side to make a little current. At last my feet touched ground, and I stepped out so deep to my left, I strained my eyes into the darkness below, and saw no bottom; I glanced up, and the gleam of light grew smaller and fainter. I had a mind to face the folks above without doing something so, I felt impatient that they lowered me at such a small pace, and I kept looking up and down, and I strained my eyes into the darkness below, and saw no bottom; I glanced up, and the gleam of light grew smaller and fainter. Personal and Literary.
SAMUEL BOYD TORNEY, Chancellor of Brown University, died on Sunday, the 23d.

A grand army festival at Richmond, Ind., Miss Jenny Prescott was voted to be the handsomest girl in America.

SERGENT COXON is writing a farce for Barney Williams who will probably repeat a great success on the stage.

MADISON BISTRO is living quietly in Paris. She realized a quarter of a million of dollars in gold from her American trip.

EX-PRESIDENT GEORGE HAYES has arrived in Paris. He is distinguished by a snow-white mustache on a dark background.

GENERAL JOSEPH E. JOHNSTON has been appointed President of the Charleston, Mobile & St. Louis Railway, now Atlanta, and Decatur.

W. H. LANGLEY, the Galloping Ohio, flour merchant, who lately failed, has an insurance on his life of \$300,000—more than any man in the country.

REV. GEORGE T. WILLIAMS has been honored with the award of the charge of picking up Italy's pocket in a New York omnibus. Mr. Williams has returned to his home in Virginia.

MR. SEDDON, the Confederate Secretary of War, is working his fine farm in Goochland county, Va. He does not mind telling visitors that he is out of pocket and ring.

ALFRED PAGE has performed one great achievement. In a recent editorial he produced a single sentence of two hundred and ten words without any other stop than a full comma. It is said that Henry A. Wise tattered away on reading the sentence.

A couple in Germany lately got wedded over a copy of Don Quixote, including a copy of every one which had been published in Europe since the book first appeared. Spain furnished 400 editions, England 200, France 168 and Russia 4.

MOSES MATHER and wife Sally, of Dorchester, received eighty-one of their children, who were all between two thousand four hundred and twenty-eight years, on Thursday, and a family reunion of great enjoyment was held. The aged couple was eighty-five years old, and have been married sixty-six years.

The New York *Times* denies that the Rev. George T. Williams, of Norfolk, Va., has been offered the charge of picking up Italy's pocket in a Broadway stage. It says the case was passed over because the District Attorney was notified that Mr. Williams had gone crazy, and was an inmate of a lunatic asylum.

THE Emperor of Austria on the occasion of his forty-second birthday is King of Hungary. He has a collection of arms and political documents including the once celebrated Kossoth. Kossoth is now advanced in years; the best portion of his life, that in which he might have been of service to his country, has been passed in exile. Eighteen years have elapsed since he fled from Hungary.

THE New York *Evening Gazette* says that a new paper, called *The Lark*, a weekly journal of satire and bad jokes, is soon to be started. The contributors include, the author, step, John Brightman, John G. Saxe, Wm. F. Gillette, George Dusgrave, Sander, and Joe Blawerd, Jr. The editor's preparatory note is:

"Come roses then, my merry, merry men."

MR. SPRATSON has the gout, and in a recent sermon alluded to his illness. He had the gout in his left leg, and he had preached standing on the other. He had not known that people preached with their legs. He supposed that he should have the gout pretty often, for it was his father's eldest son, and inherited his good qualities. He was thankful to say that the gout had not caused him to relinquish a single ministerial office.

JOSÉ BILLINGS' new lecture, which he has been engaged to read before several societies and associations next winter, bears the unmeaning title of "Milk." His list of engagements is not complete, it seems, for he has given a lecture in Boston, and is to speak at the Franklin Institute in Philadelphia on the 21st of October. The lecture will be delivered in the hall of the Franklin Institute, and will be quite sure to do worse next time.

—The Winsted (Conn.) *Herald* tells of an old hand at Woodstock who was a master of the art of swindling. He was a calm summer evening, on the beach in front of his tavern, and sing "Sinner whose love can never forget the wormwood and the gall," in "Coronation," with a touchingly sweet voice, and then step into his den and take the last sixteen from some poor girls, whom he had just been robbing. A gentleman who recently died in California has left a legacy of \$30,000 to the United States, the interest to be applied to the reduction of the national debt. Twelve hundred dollars a year does not seem like a great sum, but probably the testator hoped to be an example.

—A letter from Martini to the London *Times* says that the report that \$30,000 had been dug up from the graveyards of that city, where the soldiers were buried, and removed to parts unknown, came near terminating in a tragedy. Some fifty or sixty negroes, who claimed their share of the plunder, attacked the negro draymen who is said to have spirited the treasure away, and were threatening to burn the city, at last accounts, was filled with gangs of like negroes "discussing the great issue."

—The New York whisky dealers are getting a great deal of amusement out of their Sunday Prohibition laws, preparatory to a more forcible resistance of them.

—The Magnolia Star gives an account of one man shooting another in that region, because he refused to lend him his pipe to "take a smoke." At the time the owner was using a shotgun, and told the other he must have a pipe when he was done. As the neighbor who was disappointed pulled out a revolver, fired it at the man, missed him, jumped on his bulk and broke for the hills.

—The Winsted (Conn.) *Herald* tells of an old hand at Woodstock who was a master of the art of swindling. He was a calm summer evening, on the beach in front of his tavern, and sing "Sinner whose love can never forget the wormwood and the gall," in "Coronation," with a touchingly sweet voice, and then step into his den and take the last sixteen from some poor girls, whom he had just been robbing. Twelve hundred dollars a year does not seem like a great sum, but probably the testator hoped to be an example.

—Some of the Western papers are copying in sober earnest a joke in a Brooklyn paper to the effect that the Rev. Henry Ward Beecher is the most popular preacher with prostitutes of all.

It is proper to contrast this story for those who know no better. Mr. Beecher presents to young men the rare example of a man who has arrived at middle age utterly ignorant of spirituals or fervent religious feelings in any form except as used for sacramental purposes, and has never used tobacco in any form.

MANY an old farmer in Blandford tells a little reminiscence of Daniel Webster that has never before found its way into print. It concerns a small boy who lived among the hills there, and expounds came to the village one day when the people were gathered for some public occasion, and entered the tavern, where were assembled between thirty and forty of the principal citizens of the community. To them he was presented by name, and in those ante-slavery times invited all to drink with him, which they did. After half an hour's general conversation, in which the social parlor perfectly harmonized with the great man, leaving nothing but the whole company, shook each by the hand, and without stammer or hesitancy called each by his name, thus binding them all by that delicate compliment to life-long amigos, and in so doing, was performing a feat of memory almost without parallel.

Domestic Paragraphs.

—Pipes made of grass have made their appearance in New York. Quite Arabian.

—Champaign county, Illinois, is a great strawberry bed, with fifty bushels of berries to the acre.

—A she-blonde, who calls herself Rosa Celeste, is going to walk across Niagara on a tight rope next month.

—The waters of Lake Ontario are higher than they have been known before for many years, and have been above last year's mark.

—There are two sisters and a brother named Fisher, in Memphis, Tenn., whose united ages amount to three hundred and ten years.

—The Mount Holly (N. J.) *Mirror* speaks of a weather-beaten sage who resided somewhere near that place, measuring seven and a half inches in circumference.

—If you cannot have what you like, it is best, in a finite world, to like what you have, says a wise and witty divine in the July number of the *Atlantic Monthly*.

—At Winchester, Va., a few days since, some workmen engaged in tearing down a building set upon a rock, upon which was written the word "diamond," bottle of whisky—laid it in 1821!

—The Union Pacific Railroad is now open to Juicesburg, 376 miles west of that point, and two daily trains will commence running east way immediately. There are 5,000,000 pounds freight there which has been awaiting this event. It will now be forwarded at once.

—The New York papers are going off in mass transports of delight over the fact that the last novelty in the West End, London, Theatres is to let off carrier-doves to the stage, with bouquets for the singers.

If the New Yorkers had been in Chicago during the Parepa season, they might have seen the same novelty there.

—The Japanese Commissioners, lately to this country, purchased a large quantity of books through Messrs. Putnam & Son.

—The Hamburgh, Iowa, *Times* tell of a horse being killed by lightning near that place a few days ago. The horse was standing at the time in the centre of a group of horses, all of which, with this exception, escaped.

—A little son of Charles Kielock, in Tracy, Minn., was a boy of 10 years old, when leaving New York the boat kept abreast of each other, but by morning the *Concord* had beaten her rival by half a mile. The passengers by both the boats were greatly excited and interested in the race.

—We see it stated that in some places canceled stamps are purchased by stamp collectors, who then sell them again, the cancellation is removed, and the stamp sold for good ones. People should be careful, as the penalty for either buying, selling or using a once canceled stamp subjects a person to \$1,000 fine and five years' imprisonment.

—Cincinnati has several furniture factories on the cooperative principle. The Cabinetmakers' Union, established in 1852, paid in 1866 \$45,000 of profits, and \$12,000 in interest. The Queen City Company was established in 1858, with a capital of \$10,000, and a capital association, started in 1863, has a capital of \$10,000; the Central Association, incorporated in 1866, has \$20,000 capital.

—The time-table established by the recent railroad convention is as follows:

Guard the Guerrero, at the rate of 100 miles per hour, and the Adelphi, at 80 miles per hour, during the first half of the day, and 60 miles per hour during the second half.

—A Portland paper says that a State constable was made in one of the cities of the State of Maine, and was a simple boy, but a swindler, who was sent to the penitentiary for 18 months.

—A young lady who has been languishing for several years in St. Louis under a mysterious disease, which she calls "the skin," has been cured by a doctor, who has given her a new complexion, and she is now in good health.

—A New York ladies according to the *New York Journal* (their organ), have adopted the French fashion of washing in wine, which is said to have a peculiar softening effect upon the skin. One young lady uses two or three bottles of "green wine" every evening while performing her ablutions.

—The tallest policeman in England died of consumption two weeks ago. He stood six feet six inches in his stockings, which was a bad way for a consumptive to have been married.

—Work in the Louisville & Cincinnati Railroad is being prosecuted with vigor all along the route—tunneling, bridging, grading, etc. Among the bridges will be one over the Kentucky river. The road diverges from the Louisville & Frankfort at a point about 10 miles from the Ohio river, crossing several counties, making the distance from Louisville to Cincinnati one hundred and five miles, or four hours' travel.

—The Pensacola (Fla.) *Observer* says that the report that \$30,000 had been dug up from the graveyards of that city, where the soldiers were buried, and removed to parts unknown, came near terminating in a tragedy.

—The Magnolia Star gives an account of one man shooting another in that region, because he refused to lend him his pipe to "take a smoke." At the time the owner was using a shotgun, and told the other he must have a pipe when he was done.

PELOUBET ORGANS
AND MELODEONS,
Unanimously awarded the First Prize,
A Gold Medal,

"As the Best Cabinets Organs,"

American Institute, New York, Oct. 1865.

Brought pronounced superiority in quality, Power
and Stock of Tones, and in number of combi-
nations.

"As the best instruments of America were
there competing, which ever won the battle would
be speedily fit to conquer." - American Art
Journal, edited by a well-known musical critic.

They have also taken the first premium where
ever exhibited since 1863.

Peloubet, one two, and three bunks of
the best Organs, with their smooth pipe-

like quality of tone, unequalled softness, strength

of chords, unequalled melody, and genial organo-

phic effects are superior to all others.

They are put up in cases
of solid Walnut, finely varnished Varnish, and
unique styles, and a "gentleman's" case.

Each design is made to fit every case.

Valley Herald.

F. E. DU TOIT Proprietor.

VOLUME 5.

The Valley Herald

BY F. E. DU TOIT.

CHASKA SATURDAY, JULY 20th, 1867.

DEMOCRATIC STATE TICKET.

For Governor,
HON. CHARLES E. FLANDRAU,
of Hennepin County.

For Lieutenant Governor,
HON. ARBA K. MAYNARD,
of Le Sueur County.

For Secretary of State,
HON. AMOS COGGSWELL,
of Steele County.

For Attorney General,
HON. ANDREW G. CHATFIELD,
of Scott County.

For State Treasurer,
JOHN FREDERICKS, Esq.,
of Goodhue County.

CARVER COUNTY TICKET.

Register of Deeds,
FREDERICK GREINER.

County Treasurer,
JOHN DUNN.

Judge of Probate,
J. A. SARGENT.

Sheriff,
CHARLES JOHNSON.

County Attorney,
FRANK WARNER.

Surveyor,
H. C. MEDEV.

Coroner,
CHARLES BASLER.

LEGISLATIVE TICKET.

21st. District.

Senator.—C. W. GRIGGS.

Representative.—LEWIS GOTHELF.

DEMOCRATIC NOMINATIONS.

The Democratic State Convention assembled at the Capitol on the 10th inst., and nominated one of the best tickets ever offered the people of Minnesota. At the head of the ticket we find the name of Judge Chas. E. Flandrau, nominee for Governor, who in point of executive ability has few equals in the State and a gentleman well known as having been identified with the history of the State since its infancy, also the heroic defender of the frontier settlements in the Indian massacre of 1862.

Next on the list we find the name of Hon. A. K. Maynard, nominee for Lt. Gov., known through the State as the "people's defender" in the Legislature last winter, and as such is a "pillar of strength," and will poll a tremendous vote in November.

Next we find the name of Hon. Amos Cogswell, nominee for Sec. of State, a better selection could not have been made. Mr. Cogswell is a gentleman of fine abilities, and would grace the position for which he has been nominated.

Next comes the name of Hon. A. G. Chatfield, nominee for Atty Gen'l. Mr. Chatfield is so well known in our County, that it seems superfluous to add our testimony to the general verdict. He is everywhere known as the ablest Lawyer in the State, a fact admitted by political opponents.

Next and last, but not least, comes our nominee for Treasurer, of whom the Pioneer says:

John Fredericks, Esq.; of Red Wing, is the Democratic candidate for State Treasurer. He is a German by birth, came to this country when only fifteen years of age, and although still a young man, by his intelligence, industry and business capacity, has become one of the most successful merchants of the State. He has not only achieved wealth and position, but is a gentleman of culture, and will adorn the office to which he has been nominated. He is very much esteemed by the German citizens, and in fact by all who have the pleasure of knowing him. We doubt whether a better selection for State Treasurer could have been made. He possesses all the qualifications necessary to the discharge of the duties of the office, and we believe he will be elected by a handsome majority. His German friends are rejoiced at the nomination, and will enter the contest in his behalf, and in behalf of the whole ticket, with enthusiasm.

It is scarcely necessary to add that Mr. Fredericks is and always has been a staunch and reliable Democrat.

BITTER HOWL.

The State Zeitung sets up a bitter howl of disappointment over the nomination, by the Democratic Convention of Messrs. Griggs and Greiner, two of the ablest Democrats in our County. It seems the especial pleasure of the Zeitung to abuse the above gentlemen, because they happen to have a little more influence, common sense, and gentlemanly qualities than the Zeitung is possessed of, therefore they have become a target for the paper bullets of this harmless pop gun. Messrs. Griggs and Greiner could not receive a greater compliment, than in this tirade of the Zeitung, and its effect will be apparent to the obtuse Editor of the above journal in November next.

If we elect Flandrau and Cogswell and Maynard and Chatfield and Fredericks, has Congress any power to prevent them from taking their seats? A radical in the Rusk asked "Yes," when Cogswell asked this question. It has prevented eight Congressmen from Kentucky from taking their seats until a committee report upon their "loyalty." Kentucky stands on the same basis as Minnesota—having never seceded—but sent over 40,000 men to fight the rebellion. If Kentucky can be treated so, why not Minnesota?—Pioneer.

Forcing Negro Suffrage on All the States.

The telegraph tells us Mr. Sumner has offered a bill to force negro suffrage on all the States. Speaker Colfax has received the petition of 170 colored men, late United States soldiers, residing in Kentucky, stating that the state laws deny them the right to testify, and asking Congress to grant them the right of suffrage. The petition was laid before the House. And probably before twelve months the "watering pot" of Phillips and Sumner will make Congress grow so much that they will not hesitate to force on Kentucky, on Maryland, on Minnesota, and on every other Northern State, the same tyrannical and despotic measure which they have forced upon the Southern States by their reconstruction bill, in spite of our constitutional right to regulate the matter of suffrage in our own way. How useless to have any bill introduced in a Legislature and a Constitution of our own, if Congress can say that negroes may vote here when our Constitution says they may not, and we go through the farce of amending it this fall. Thus Congress is usurping all power, and swallowing up the States in a centralized Despotism.

Hon. Charles E. Flandrau.

From the St. Peter Advertiser. "Away with your resolutions for political purposes. The people in Western Minnesota are being murdered by the hundreds, and it is our duty to save them at all hazards. Move to New Ulm! Move to the frontier! I said to the men, women and children, it is my command. We want no bound words or proclamations from Dounley, but be duly recognized by us."

ROADS.—The warm dry weather of the past two weeks, has made a remarkable change in our roads. We are informed by our farmers that the roads leading out of town are quite good, and they find no farther trouble in coming in, or going out of town.

CATTLE FAIR.—Cattle Fair was very slimly attended on Saturday last.

Whether it is owing to the scarcity of money, or from the fact that our farmers are busily engaged on their farms, we know not. It is attributable to some cause, probably one of the above, or both.

JUDGE EBINGER'S NEW RESIDENCE.—Judge Ebinger's new residence is rapidly approaching completion. It is a large two story brick building; and it has an imposing appearance, situated as it is in a commanding position. By the way, the Judge has one of the best farms in the county, and its value is much enhanced by its joining town. His crops look finely.

RIVER.—The river is rapidly receding within the "bounds of reason." It has fallen at least five feet since our last issue. We now have a splendid stage of water.

THE CHIPPEWA FALLS.—Capt. Houghton, went up on Tuesday morning last, loaded down to the waters edge with freight, he also had three barges to tow, all loaded down with lumber. The St. Anthony Falls, also makes occasional trips.

MORAVIAN ACADEMY.—The pupils of this well known establishment are enjoying a two month vacation.

Mrs. Lange, one of the leading teachers engaged in this institution last term, left for her home in Penna. recently.

Mrs. Lange had gained in her short stay here a large circle of friends, who regret her departure exceedingly. She certainly has the wishes of the community for equal success hereafter.

DYING.—Our rich bottom lands along the river, have again become visible, very little water being left upon them.

We observe our farmers cutting hay in places where the water did not stand long.

There is some places where the grass is entirely dead. In such spots it is not expected that any grass will be cut for two years.

The floods have occasioned great loss to farmers owning much stock.

CROPS.—The past two weeks has worked "magic" in our fields. Wheat, Barley and Rye, are truly splendid.

Look out for a huge yield.

Caught a Tartar.

When the republican members of the impeachment committee summoned Horace Greeley before them to testify against Andrew Johnson, they caught a Tartar.

He not merely exculpated the President from any interference in the matter of securing bail for Jefferson Davis, but under the cross examination of Mr. dredge, he convicted the leaders of the radical party of an attempt to dislodge Greeley from signing the bail bond, for purely partisan reasons. In short, if anything further had been required to expose the corrupt and partisan motives of the radical members of the committee and their allies, the statement of Horace Greeley is sufficient.—*Dom. Chatfield.*

The overland mail from Fort Aber-

crombie to Montana is now in operation.

It is transported by mule. Charles Rufee, an Indian trader at Crow Wing,

is the contractor.

HOME ITEMS.

HERALD AGENT CARVER—G. A. Du Toit.

MARRIED.

In Chaska July 12th, 1867, by Judge of Probate John Jank to Alvina Trease, both of Washington.

DIED.

In Chaska, July 14th, Heinrich Roers, aged 61 years.

CHASKA MILL.—The Chaska Mill Company shut down their mill last week, for want of grain. They will make some alterations and repairs, and be ready to operate on the new crop, about Septem- ber 1st. Since starting about Feb. 1st, they have ground nearly ten thousand barrels and sacks of flour and paid out for grain &c. over twenty five thousand dollars, and it is "presently reported" that they have not lost much money. They have on hand a good stock of extra and common flour, for sale at the mill.

The President has gone to Europe, and the gentlemanly Secretary was last seen reposing upon a sack of bran, calmly smoking his pipe, and apparently meditating upon the vanity of all earthly things. The business manager was last observed hunting up quotations, and cogitating upon the financial condition of Carver County Bonds.

CARVER ITEMS.—We have procured a regular correspondent at Carver, who will hereafter furnish our readers in that locality a weekly supply of items. The first installment will be found in another column. We now hope to extend our subscription list in that town to twice its present size. We also expect to see the business men of that enterprising city, represented in the adv. column of the HERALD.

G. A. Du Toit, is our Agent, all orders left with him, and all business transacted with him, for this establishment, will be duly recognized by us.

WEATHER.—The weather has behaved gallantly the past two weeks. Our roads are drying up, and our crops are getting along finely. Glorious!

DODGE CO. REPUBLICAN.—This is the title of a new paper, published at Kasson, Minn., by Messrs. Shaver & Hoag. It has a very neat typographical appearance, and being also ably edited, must make its mark in Southern Minnesota.

LUMBER.—We observe by Minneapolis papers, that lumber has greatly declined in value. We would like to know why our lumber dealers do not replace their yards, it is now impossible to get lumber enough in town to build a pig sty. Come, bestir yourselves!

Carter Items.

Our Special Correspondent.

IMPROVEMENTS.—More improvements can be noted in town this season than any previous season for a number of years.

Quite a number of new buildings have already been put up, and more are now underway. A Knoblanche is erecting a large frame house on 3d street, between Capt. Houghton's residence and the Planter's, which when completed will be a credit to the place. Torry & Pike builders. E. Goetz is also just putting the finishing touch on a "splendid brick" which by the way, is a "Carver Brick" manufactured by Reynolds & Miller.

A. R. Anderson has just finished a very neat residence at the edge of town. I hear of quite a number more buildings which will soon be commenced.

CHURCH.—Carver can now boast of having a "Church," something it has been sadly in need of; it is a very fine building, 25 x 45 and is very pleasantly situated upon a slight rise of ground just in rear of the School House. J. S. Letford, the builder has certainly shown himself to be a mechanic of more than ordinary ability. It is now receiving a fresh coat of paint which will add much to its appearance.

BUSINESS.—Business for the last two weeks has improved considerably from what it has been for some time. The roads leading to town have been in such a condition that it was almost impossible for farmers to get in, hence business dull, a week more such weather as now will dry them up.

REMOVED.—F. Belfoy, Ed. Independent, we are sorry to hear will soon take his departure from our midst. He goes to Minneapolis where we believe he will commence the publication of a weekly Democratic paper.

MASSACRE.—Business for the last two weeks has improved considerably from what it has been for some time. The roads leading to town have been in such a condition that it was almost impossible for farmers to get in, hence business dull, a week more such weather as now will dry them up.

CONDENSED NEWS ITEMS.

Personal and Literary.

The Prince of Wales is said to have severely won \$79,000 on "Harmit."

GENERAL Tom Thumb has acquired a slight moustache since he went abroad.

HARVEY is making an effort to raise a monument in memory of Mrs. L. H. Sibley.

DR. FORBES WISER, a London physician, has published a book to show that the author really has some connection with Harvey.

MR. GREENLEY is a great talker in the Constitutional Convention, and the *World* makes the point that he has no seat in that body, as he is on his legs all the time.

THOMAS WINANS has concluded to make his permanent home in St. Petersburg, Russia, and his splendid residence at Baltimore is offered for sale.

THE Racine (Wis.) *Journal* is happy to be able to chronicle that Mrs. Lincoln, the widow of the late President, has taken up her residence in that city, and is now Congress Hall.

All-Race is well again, and the same may be said of little Jellie Boyce. He only sustained a contusion of the thigh from his terrible fall. He joined the track at Boston.

GEORGE FRANCIS TRAIN is reported to have received \$50,000 for organizing the Creditors' Association, a financial institution that had handled \$20,000,000 since he established it in 1856. It has the contract for building the first section of the Union Pacific Railroad.

ARCHBISHOP WHATELY once puzzled a number of clever men in whose company he was by asking them this question: "What is the best way to get a man to work?" Others set to work and tried to give learned and long reasons; but all were anxious to know the real cause. After keeping them wondering some time he said that the reason is because there are more of them.

NOT only is Nathaniel Follett, who is aged 93, and President of the Bellows Falls Bank, the oldest bank President in the country and the oldest Mason, but he is also the oldest encyclopedist. He plays that game regularly, and has succeeded in handling the couple which no predecessor can excel, and is a match for the most experienced player in the county. His boy, 66 years old, lives near him, and partakes much of his father's energies and tastes.

Speaking of the magnificent residence which the Follets have built at their home in Vt., and which cost \$1,000,000, a local exchange remarks of the proprietors: "It is only a few years since this distinguished Senator and benefactor passed away, and is a match for the most experienced player in the county. His boy, 66 years old, lives near him, and partakes much of his father's energies and tastes.

A correspondent writes: "A great many who are not very well informed are wholly unimformed." Genius exposed to the sun had been affected, and to render it certain before her departure that all was right, she was placed upon the dry dock. Instead of springing a leak, however, that was not even damp. She was found perfectly reliable and sea-worthy, and is now taking in coal for her voyage to China.

A bridge of about one hundred feet spans the river at New Haven, and was entirely demolished last week by a freight train running off the track near it, and which struck the bridge, knocking it off its abutments into the river, making it a total wreck. The Superintendent of the bridge said that a hundred carloads of timber in a length of about as long as was ever run. The engine drew this immense train without any more strain than is usually felt in hauling trains of an ordinary length, though the grade on some parts of the road is exceedingly steep.

Incidents and Accidents.

—One of our exchanges says a man blew out his brains after bidding his wife good-bye with a shot gun.

—A country lad was very much shocked to learn that his President was taken into Boston to die.

Twelve tons of railroad T rails were stolen from a pier at East River, New York, last week. The man who pocketed the trifle has not been discovered.

—On the 4th, twelve houses in Covington, Kentucky, mostly small frames, were destroyed by fire, caused by shooting a pistol. Loss, \$10,000.

—While a child was eating candy at Braddock, Conn., the other day, it got a torpedo in its mouth, which exploded and blew out three of its teeth and its lip.

—We find an incredible statement in one of our exchanges. It is said that a young couple in Springfield, Mass., ran away to France to marry, and that the girl, who was only fifteen, had to go back again. Where were all the others?

—We never heard of any trouble in getting ministers to marry anybody. As a general thing, they perform the ceremony with the utmost alacrity, asking no questions, and then protest vehemently against putting asunder, under any circumstances, those whom God has thus joined together.

—Mr. J. N. Stoeckle was being shaved in a barber shop on Central avenue, near Seventh street, Cincinnati, recently, and had just had his throat "scrapped," when he suddenly felt a sharp jerk backward and fell in a fit. He immediately leaped up, bleeding hand and repair to a drug store, where the wound was properly dressed, during the process of which Mr. Stoeckle vowed that before he was shaved again he would require satisfactory proof that the barber was free from fits.

—The transit of Venus over the sun's disk, which will take place on the 8th of December, 1884, and is already engrossing the thoughts of astronomers. It affords a direct observation of the planet's node or point, where its orbit cuts the ecliptic, and is of great value for the correction of astronomical tables; but it is chiefly important for the determination of the sun's parallax (or angle under which the sun, seen from the sun's radius) and the distance of the sun.

—A young woman named Catherine Jane, eighteen years of age, committed suicide at La Crose, the other day, by swallowing strichnine, which she purchased ostensibly to kill gophers with.

—A Lancaster (Pa.) paper says that a young woman residing in the western part of the city was so much injured, while trying to save her mother, a few days ago, that a physician had to be called in to attend her.

—It is rumored that one of Chicago's fair daughters, eighteen years of age, of good family and well-educated, has become entangled with Sing-Kee Chee, the bamboo king, and the happy pair are waiting the consent of the Tycoon to unite their destinies.

—The safe of Hamlin, Ly & Co., of Chicago, was broken open during business hours on Saturday, the 6th inst., and eight thousand dollars in United States bonds, mostly seven-tenths, were stolen.

—At Cedar Falls, R. I., a young man left his home on account of dissatisfaction, and took another residence. While he was digging a cellar in a barn on Friday, he was unable to enter it, and then he refused, when the building fell, killing himself instantly.

—The Mobile *Tribune* says that the method of killing dogs in that city is quite different from the "poisoned sausage" administered by the police of other cities. They dogs are caught in scoop-holes, and are then tried before a military court before being executed.

—A Port Huron paper says that a State constable was noticed in one of the churches of that city on Sunday, with a sharp eye on the doors, people "can turn around and see him." He is a member of the Masons, deridingly called "the feathered serpent," and his tattered coat is a misnomer.

—A man in New York has been committed to the penitentiary for "defacing natural scenery" by pasting advertisements on the curb stones.

—In 1855 there were as many inhabitants in Philadelphia as there were in New York at that time combined. The figure is now about 2,000,000.

—A summer boarding house in Northampton, Mass.—this town being the scene of Mr. Beecher's *Loyalty* story—has been named "Norwood Hall" in honor of the tale.

—The freedmen in some parts of Texas insist on a "manning" bill, to prohibit 30,000 negroes from holding office. The propensity to harpoon is growing strong in the minds of the planters.

—A match is on the tapis between the celebrated running horse Kentucky, and the famous trotter Dexter, for \$10,000, the former to trounce the latter by half a mile.

—A man in New York has been committed to the penitentiary for "defacing natural scenery" by pasting advertisements on the curb stones.

—There is a great deficiency of lime in the soil and water of Oregon. The dentists are frequently called on to treat the teeth of children, six and eight years of age, the effect on the entire health system must be equally disastrous, though less manifest.

—There is an apple tree on the premises of John Kohler, in North Whitehall, Cambria Lehigh county, Penn., which is over 100 years old. Last year this tree bore over 100 bushels of apples. It is 60 feet high, and 54 feet in diameter two feet above the ground.

—The Portland *Argus* says there has never been a season when salmon were so plenty as the present. There were three thousand five hundred pounds taken in one

day last week near Lincolnville. They sold for \$1,750. Some of the salmon weighed over thirty pounds.

—WILLIAM Young, it is said, has succeeded in out-managing and outwitting Elders and getting his son and heir apparent to the latter-day throne much to the chagrin of the veterans, who thought the succession would much more appropriately fall to one of them.

—The Milwaukee *Daily Wisconsin* thinks that Young should be called Digger City. For twenty years he has been engaged in measuring a custom-house coast, was seized with a cough, and suddenly fell to the floor, blood issuing freely from his mouth, and in five minutes time was dead. Dr. Payne had been treated during the day, but his pulse was weak, and it is presumed that by a sudden strain he ruptured a blood vessel.

—A queer accident occurred to the New York train on its way to Washington, a few nights ago. The conductor asked a passenger if he was one of the passengers for his ticket, when he replied he was in possession of a *copy* of \$250 in gold, and a letter announcing that that sum had been wired to the conductor during the day, and that he had a cost of five million dollars.

—THOMAS WINANS has concluded to make his permanent home in St. Petersburg, Russia, and his splendid residence at Baltimore is offered for sale.

—THE Racine (Wis.) *Journal* is happy to be able to chronicle that Mrs. Lincoln, the widow of the late President, has taken up her residence in that city, and is now Congress Hall.

—ALL-RACE is well again, and the same may be said of little Jellie Boyce. He only sustained a contusion of the thigh from his terrible fall. He joined the track at Boston.

REAPERATOR CAPILLI.

Throw away your false frizzles, your switches,

your wife.

Destructive of comfort, not worth a fig.

Concealed, looks ugly and fair,

And removes your own hair.

REAPERATOR CAPILLI.

For restoring hair upon bald heads, (from

whatever cause it may have fallen out) and forcing

a growth of hair upon the face, it has no

equal power force hair to grow upon

bald heads fast, from bald heads or

hair upon bald heads in from two to three months.

A few ignorant practitioners have asserted

that this article will grow hair on bald heads.

The assertions are false, as thousands of living witness, (from

their own experience) can bear witness. But

many who have used it, do not know

from whence it sprouts? It certainly is dif-

ficult, as nine-tenths of the different preparations

advertised for the hair and beard are entirely

useless, and the cost of growing hair is a very

large amount in their purchase. To such

we would say, try the Reaparator Capilli; it will

cost you nothing until it is fully developed.

If you don't like it, send it back, and we will forward it,

postpaid, together with a receipt for the money,

which will be returned to you on application,

proving entire satisfaction is not given.

County Treasurer.—JOHN DUNN.
Judge of Probate.—J. A. SARGENT.
Sheriff.—CHARLES JOHNSON.
County Attorney.—FRANK WARNER.
Surveyor.—H. CHEVER.
Coroner.—CHAS. BASLER.

LEGISLATIVE TICKET. 21st. District.

Senator.—C. W. GRIGGS.
Representative.—LEWIS GOTHELF.

DEMOCRATS ORGANIZE.

We see evidence all over the country, and more especially in our own state, that the great Democratic party is alive to the tremendous issues involved in the present campaign, and are taking time by the forelock, in thoroughly organizing their forces in every town throughout the State, knowing that this is the only way by which we can get out the full democratic strength. Henceforth, let every town committee, every candidate, and every active Democrat work with that object in view, and we assure you a glorious victory will be your reward on the 1st Tuesday in November.

The following gentlemen were elected at the Democratic County Convention, as the Central Committee for the ensuing year.

G. Kraventz, Chairman. E. Reuse, Benton. J. Winniford, Chaska. Chas. Basler, Carver. J. M. Schneider, Chanhassen. P. McCormick, Canfield. Frank Missler, Dahlgreen. Matthew Kelly, Hollywood. Fritz Oberle, Laketown. Patrick Colvert, San Francisco. Henry Basler, Wauconia. I. Lewis, Watertown. Robert Patterson, Young America.

\$14,000,000. For Registering Negroes.

This is the Secretary of War's estimate as appears from the President's message. This is in addition to \$30,000 per annum for running the Bureau, so as to carry the elections for the Radicals; and these immense sums, we must pay by our income taxes, and by the high tariff which adds from 50 to 100 percent. to all we eat, drink and wear.

Sambo is an expensive luxury. We have already paid out more money to make him a Republican voter, than it would have cost us to have transported the entire crew to Africa and given them a farm apiece. But then, in Africa, they could not have voted for the Radicals, and the Union would have been restored, which would have ousted the Radicals from power, and this would never have answered. We poor whites must be enslaved the balance of our days by high taxes and high tariffs to make Hottentot voters for the Radicals, and the Union must be dissolved and despotism established until this important end is accomplished. In the classic language of Rev. Beecher, "what's what's the matter?"—Pioneer.

Overland Mail Route to Montana.

We are indebted to Gov. Marshall for the subjoined copy of a dispatch received by him yesterday from Montana:

VIRGINIA CITY, MONTANA, July 13, 1867.

Gov. Wm. R. Marshall: Mr. Ruffee's mail contractor arrived in Helena fourteen days from Abercrombie, establishing stations enroute.

N. J. LANGFORD.

GREAT FLOOD.

The River Higher than in 1859,
Twenty Million Feet of Logs
Gone out.

SUNDAY EVENING, July 21, 1867.

Since our regular edition of this morning, we have to chronicle the breaking of Coon Creek Boom, eight miles above this city, by which twenty million feet of logs have gone over the falls.

The logs reached the falls about 11 o'clock on Saturday night and for two hours the river was running full from shore to shore. This morning only a few stragglers were left, and during the day the number afloat has been comparatively small.

The total loss by this flood, up to the present time, sums up in round numbers to thirty million feet.

ANOKA ROOM.

The number of logs in Rum River is estimated at from forty to fifty millions of feet, being all that is left of the winter's out of one hundred million feet, except six or seven million feet jammed in between Nicollet Island and the St. Anthony shore, and about fifteen millions cut by the mills the present season.

THE PACIFIC RAILROAD BRIDGE.

About eight o'clock this morning, the abutment of the St. Paul and Pacific railroad bridge on the Nicollet Island shore, gave way, and the end of one span of the bridge fell into the water, leaving the other end hanging to the first pier. When this span fell, there were three or four persons upon it, one of them a woman, who were crossing over to the island. Fortunately they all escaped, with nothing more serious than a sudden jar, and probably a good scare.—Had it been a week day morning there is but little doubt that it would have gone down with the first train of cars, which comes up about that hour.

It is not to be understood that the logs that go over the falls are total loss. They will mostly be caught below, and after deducting the expenses and falling upon a glutted market, will probably realize half their value, making the total loss to the lumber trade about \$200,000.

With fifty millions of logs yet to be sawed, and the damages to be repaired, there will be abundant employment for every man in our community; and four weeks from now will see our people entirely recovered from this disaster, and with as much faith and hope in the future of Minneapolis as they have ever had.—Minneapolis Tribune.

The Railroad Bonds.

The Democratic State Convention wisely refrained from any declaration against the payment of the State Railroad Bonds or for their payment. The party does not propose to adopt and nourish this Republican measure; neither will it desire for anything that might in the least be construed to mean repudiation. There will be ample opportunity before election to inform the people on every phase of this bond question.—They will decide the question aside from political issues. If the honor and good name of the State is to be seriously effected by the defeat of the legislative proposition, the voters are entitled to the facts to prove that such is the case, and they will not be slow to regulate their action as to preserve the good name, fair game and credit of our common wealth.—Le Sueur Courier.

Negro Suffrage in New York.

Much to the disgust of the Radical wing of the New York Republicans, and the same wing everywhere else, the New York constitutional convention, with a large Republican majority, have voted down the resolution declaring that "negroes are entitled to the same rights and immunities as citizens of European descent."

The negro suffrage idea was thus repudiated by a vote of 42 to 41.

The question is to be submitted to the people as a separate proposition from the constitution.

The Minneapolis "Tribune" calls this a considerable copperhead victory, and says Nasby ought to take up his residence there.

Mr. Nasby will soon find so many places where he ought to take up his residence, that it is quite probable he will have to be ubiquitous. We trust these news will not greatly overcome those tender souls, who fear that this may get to be a "white man's government."

Republican State Convention.

The Union electors of the State of Minnesota are hereby called upon to meet in Delegate Convention, at Ingolds Hall, St. Paul, on Wednesday at 12 o'clock M., the 11th of September, 1867, for the purpose of nominating candidates for Governor, Lieutenant Governor, Secretary of State, State Treasurer, and Attorney General, to be elected at the ensuing election in November next. Carver County 3.

Delegates from unorganized counties not named will be subject to the action of the convention.

THOMAS FORSTER, Chairman. THOS. SIMPSON, BEN. F. SMITH, W. H. MUSSELL, W. B. MITCHELL, Republican State Committee.

St. Paul, July 18, 1867.

HOME ITEMS.

HERALD AGENT CARVER—G. A. DuToit.

MARRIED.

At the residence of Geo. M. Powers, Esq., Chanhassen, July 4th, by Rev. Mr. Sheldon, A. W. Latham to Cordelia O. White, both of Minneapolis.

LOSS OF WOOD.

The great freshet in the Mississippi river occasioned great loss of property along its bank. Mr. J. A. Dunkie, wood dealer of this town sustained a severe loss by this flood at St. Paul. The rise was so sudden and rapid that he had no time to save his wood on the bank, and upwards of 200 cords floated off.

He sustains a loss of over \$1,200. We also understand that Messrs. Newcomb & Griggs, sustained a light loss in the same manner.

THE RIVER.

Our pencil fails us in any attempt upon elaboration on this unengaging subject. The fact of the matter is, the river has again flooded the bottoms above and below this place, and has every appearance of coming in to lower town. Up to Wednesday morning the rise in our river was owing altogether to the great freshet in the Mississippi, but on that day it came slowly from above and at the present time of writing, is still on the rise. This is the fourth rise of the season, each of which have been more or less destructive to the inhabitants along its banks. We presume nothing more will be said about the river drying up. This certainly will dispel all such vain illusions.

HAYING.

Our farmers are busily engaged in harvesting their winter supply of hay. In the interior we are informed hay is much better than ever, and will fully make up for losses sustained on the river bottom, by the floods.

PERSONAL.

We received a call this week from old time and reliable Democrat, Hon. Eli. F. Lewis, of Watertown, we were pleased to find him in good health and as "brim full" of good old Democratic doctrines as ever. Mr. Lewis faithfully represented our County in the House last winter, and will ever be remembered by our County as a faithful servant. Call again when in this locality.

PRairie Schooners.

"Westward the Star of Empire takes its course." The off used quotation was brought to our mind this week by observing a large number of "Prairie Schooners," pass through our town, evidently following out the purport of the above quotation. We did not learn whether they were bound.

NEW BRIDGE.

Mr. Barker informs us that a gang of men are at work on the bridge between our town, and our suburbs, Merriam Station, and that if high water, does not again interfere, the road will be in traveling order next week.

CANDIDATE FOR SHERIFF.

Mr. F. E. Hecklin, we understand is an independent candidate for Sheriff. He says he intends making a vigorous campaign during the months intervening between now and election.

CHAMPION BED BOTTOMS.

Messrs. F. & H. Wolff are about commencing the canvass of Carver, Sibley, and McLeod Counties, with "Duffy's Bed Bottoms," one of the most useful, economical and durable Patent we ever saw.

We have them in our bed, and can heartily press our readers to give them a trial believing, aye, knowing that after such trial would not be without them in your family. Those having them in their beds in our town are loud in their praise. Messrs. Wolff's have bought the right for five counties.

LEVY STABLE.

Perhaps all you have a "No. 1 Levy Stable" in town where one can be accommodated on reasonable terms with a "splendid rig," on short notice. Messrs. Homan & Ferguson are both good gentlemen in every sense of the word and deserve to be liberally patronized by the citizen generally.

They have fast horses and good riding coaches, besides being themselves good and careful "conductors"—inducements enough to make any one like to travel with them.

SCHOOL.

The school at this place is probably a credit to the town. Mr. Brown the teacher is a gentleman in every way competent and is much liked by the scholars. The average attendance is about 90 during the summer, and in winter about 135. The school house has recently been refitted, and is now very comfortable to both teachers and scholars. We hope the trustees will secure the services of Mr. Brown for the winter term.

LIVERY STABLE.

Perhaps all you have a "No. 1 Livery Stable" in town where one can be accommodated on reasonable terms with a "splendid rig," on short notice. Messrs. Homan & Ferguson are both good gentlemen in every sense of the word and deserve to be liberally patronized by the citizen generally.

They have fast horses and good

riding coaches, besides being themselves good and careful "conductors"—inducements enough to make any one like to travel with them.

BELMONT.

Young ladies in Chaska are as scarce as "Hens teeth," to use a common expression. We would advise the philanthropists of Massachusetts, to ship a cargo to Chaska, as we are almost certain they would find ready market.

WE publish elsewhere the call of the Republican Central Committee, for a State Convention.

St. Paul, July 18, 1867.

LOVE AT FIRST SIGHT.

[From "Songs with Preludes," by Jess Englow; impresa by Robert Brothers, Boston.]

The racing river leaped and sang,
Full merrily in the purpleather,
Almond blossoms in the peachbough,
For blue and green were glad together.

This rated out light from every part,
And that with songs of joy was brimming;
But still the sun was bright,
There ached a place that wantedilling;

Before the steep road river met,
And stepping-stones are wet and glister,
I heard the singing waters flow,
And panted to like it, and to listen.

I heard the chanting waters flow.
The casht's not, the bell low humming;
Then I knew the sun was bright,
How could it—then my love was coming;

A gift upon the highest stone,
Half doubtful of the love he had, was standing,
So that his head had down,
Beyond the "customed leap of landing."

She knew not any need of me,
Yet me she waled all unwilling;
With her I waled, and her I waled,
Held the sphere to give her meeting.

I waded over her eyes I met,
I waled the moments in her hours;
I held her in my arms, I set her free,
Her only feet among the flowers.

Her follows-mind in scope and lane—
Ah! still methinks I hear them calling;
They will be here, the bell in the plain,
The casht's a coo, the water flowing.

But now it is a year ago,
And now possessions crown endear;
I took her in my heart, and her I waled,
And the hollow place forever.

MY STRATEGIC COURTESY.

"A beautiful girl," said an eccentric
gentleman whose invitation includes any
girl you like to take with you for a few
days shooting. "Why, my dear Fred, you
have bound me to you forever by the se-
lection of myself." And so forth a man
already: for it was only when you
could not now, I was suffering from an
unusually desperate fit of the blues."

"Consequently, in a remote degree, on last
night's supper," suggested Fred Clayton,
"and a good deal, also, on the way in which
you keep cooped up in these dismal dark-
nesses."

Fred glanced contemptuously round my
dinky Temple chambers as he spoke—a
survey scarcely necessary, considering
their intimate resemblance to his own ad-
joining rooms. However, I forbore any
remorse, for the delighted proposal just
presented to me absorbed all my atten-
tion, and I grasped my friend's hand in a
fever of gratitude.

"Tell me all about it," I said, "and how
you came to think of me."

"There is no time to tell," replied Fred,
seizing himself on the corner of the table
and swinging his legs back and for-
wards lazily. "This morning I got a letter
from an old fellow in the country, remem-
bering me as it were, and telling me that
he and his wife had been friends thirty
years ago, and had drawn me to his place
for a few days shooting with him to
bring a friend if I liked."

"And his niece that you told me of—the
heiress?" said I.

"Oh, of course, he did not mention her,"
said Fred. "I hardly tell you because
if you choose to put yourself under my
guidance, you may be the means of helping
you to a good thing. You know," he added
more deliberately, "how disinterested my
assistance can be; safer little confidences
we never had in sight."

"True," said I, charmed with the recol-
lection, "your pretty cousin—the secret
engagement—"

"Yes," interrupted Fred; "you know
all about it; and have you not seen
each other more than most? so it was
natural I should think of you as a com-
panion for my holiday, and I'm right glad
you're inclined for the trip."

So saying, and leaving my renewed
appetite for pleasure, Fred left me,
approaching a rendezvous at the first train
leaving for our destination, some two or
three hours later.

Fred Clayton and I had been school-fel-
lows in our early days, and had been
vacationing at his father's house.
Of late years, however, he had lived exclusively
in London; like me, a young aspir-
ant to the uncertain honors of the bar, but,
unlike me, possessing a large circle of
friends and acquaintances, and present-
ing such a social force at the tables,
dinners, balls and concerts; for Fred was
said to be very popular, especially in la-
diest society.

In the mere fact we were both
younger sons without any expectations
there was but little resemblance between
Fred Clayton and Jack Harris. We grad-
ually lost touch, dated back a few
months, and shortly the great city of
London only had us both; but half a year
ago, I made friends with the young
lady, and the unhappy knowledge that my
friendship with her would make such a clause a prospective martyr.
No; I could not bear to think of her
as my friend; but her talents
I certainly had—deeper, more intrinsic
merits than those that passed for genuine
in a ball-room—but they were merits to
develop in an atmosphere of peace and
quietude, of quietude, of quietude,

and a small
bit of quietude, and when it appeared to
me that two hours, and when, ultimately,
we returned to the drawing room, human
nature asserted its rights, and uncon-
sciously I stole over to the piano where
Miss Bella sat, and, with a smile, uttered
myself over the keys, while Fred Clayton
stood before her looking through some-
what he called his specimens.

The examination of the piano keys

was the underlying chance of presentation to a young
lady, and the unhappy knowledge that my
deficiencies in the art of small talk
would make such a clause a prospective martyr.

No; I could not bear to think of her
as my friend; but her talents

I certainly had—deeper, more intrinsic
merits than those that passed for genuine
in a ball-room—but they were merits to
develop in an atmosphere of peace and
quietude, of quietude, of quietude,

and a small
bit of quietude, and when it appeared to
me that two hours, and when, ultimately,
we returned to the drawing room, human
nature asserted its rights, and uncon-
sciously I stole over to the piano where
Miss Bella sat, and, with a smile, uttered
myself over the keys, while Fred Clayton
stood before her looking through some-
what he called his specimens.

The examination of the piano keys

was the underlying chance of presentation to a young
lady, and the unhappy knowledge that my
deficiencies in the art of small talk
would make such a clause a prospective martyr.

No; I could not bear to think of her
as my friend; but her talents

I certainly had—deeper, more intrinsic
merits than those that passed for genuine
in a ball-room—but they were merits to
develop in an atmosphere of peace and
quietude, of quietude, of quietude,

and a small
bit of quietude, and when it appeared to
me that two hours, and when, ultimately,
we returned to the drawing room, human
nature asserted its rights, and uncon-
sciously I stole over to the piano where
Miss Bella sat, and, with a smile, uttered
myself over the keys, while Fred Clayton

Personal and Literary.

Tom Thumb Lips. He considers himself thumb-pumking.

GERTRUDE SMITH writes that her generosity has left him no longer a rich man.

HARTFORD is making an effort to raise a monument in memory of Mrs. L. H. Sigourney.

A Pacific Railroad agent is now in the East to enrage five thousand colored laborers for that national highway.

LUCY LAROCHE is not a *novice de plume*, but the proper name of a pretty and amateur poet, who resides in Beverly, Mass.

A **WALLY WISE**, the great robes maker for Boys and Girls, *Young Folks*, is C. R. Josslyn of Malden, Mass., formerly a Unitarian clergyman.

M. GUEREEY is a great talker in the Constitutional Convention, and the *World* makes the point that he has no seat in that body, as his seat is empty.

QUEEN was expected in Paris and has probably arrived there already. Her visit is to be strictly *in cog*, so the papers and authorities will refrain from tasting any notice of her.

The well known French financier, M. Emile Pereire, is President of twelve or fifteen joint stock companies, the aggregate capital of which is \$78,000,000. His interests in Paris may be imagined.

CORAL JAMES, alias Samantha Proctor the notorious astrologistess, has sued a leading grain warehouseman of Chicago for \$100,000 as breach-of-promise damages. It is a palpable case of black damage.

SIR GILBERT GRANT, at Boston, nearly a month of age, was formerly a printer and publisher. He established the first public news room in Boston, and subsequently became a broker.

M. DUMAS has had work to play the piper after all by having his picture taken with the Monks. There is greater demand for them than ever in Paris, and Brady has reproduced the picture in New York.

A GENTLEMAN asked Mr. Beecher the other day what he intended to do with the earnings of his novel now running in the *Liberator*. He was bethorred to know, but "felt tempted to get up a grand railroad accident and kill them all off once."

Young Cutharsus, the artist-humorist, has been granted a pension of \$475 per year by the British Government in acknowledgement of his genius. He is seventy-five years old, and, whether needing it or not, the acknowledgement comes late.

PAGE PICS IX. is strong man physical, but not spiritual. According to the *New York Herald's* special cable telegram the old gentleman complacently "lifted the silver model of the Henrietta from its case and a cargo of 50,000 gold dollars. It was a masterpiece but present it was not weight at the least calculation, must have been 700 pounds.

BIGHORN YOUNG was 66 years old on the first of June. Miss Eliza R. Snow, the Mormon poetess, improved the occasion by singing.

O God, bless Brigham Young:
Bless him, and all that bless him;
Waste them away, O God, pray,
When we sin, let us sin no more.
Content with Thee.

O God, bless Brigham Young:
Protect us, O God, pray,
We pray Thee, give him power to live
Until the resurrection.
Give back our dead.

Domestic Paragraphs.

—There is to be a mosquito show in New York.

—Salmon can be bought at Sitka for two cents a pound.

—The Pittsburghers complain that their ice has a strong taste of petroleum.

—The entire cost of the Nicolson paying given out or proposed in Memphis, is \$1,000,000.

—A Lincoln monument, one hundred and forty-five feet high, is to be erected at Atlanta, Ga.

—The great secret of success in business is to get the ring of the true metal! —*Primer's Zinc.*

—The Indians of Montana are said to have 25,000 warriors in the field, and have an idea that they can exterminate the whites.

—Corry, it is said, is increasing so rapidly in population that it now ranks next to Erie among the cities of Northwestern Pennsylvania.

—Tolo has been sued by Nicholson the patentee, for a royalty of sixteen cents per yard on its wooden pavements, amounting to \$10,000.

—The Wyandotte (Kans.) *Pioneer* publishes notices, and apprises the following apto terms, and expressive comment to each of them: "No cake."

—Many of the handsome bridal presents exhibited at a so called fashionable wedding receptions in New York are hired of a dealer who makes quite a living out of it.

—California papers say that San Francisco sends away forty tons of silver and six tons of gold every month, and that the State exports 10,000 tons of copper annually.

—At a quarry in Massillon, Ohio, a few days ago a stone was taken out by a steamer weighing 117 tons. It was sixty feet long, seven feet wide and four feet thick.

—The Salt Lake *Vindicator* says there are eighteen militiamen on guard at San Pete, who come to town to pay for the services at the rate of \$5 per day for each one of the eighteen.

—A match is on the tip-top between the celebrated running horse, Kentucky, and the renowned trotter, Dexter, for \$10,000, the former to run four miles while the latter trots three miles under saddle.

—The Salt Lake *Vindicator* says there are three coaches every other day from Juilee to Denver, one hundred and eighty-two miles. These have military protection, as it is necessary to insure their safety.

—Mr. and Mrs. E. A. Stevens, of Hoboken, N. J., gave a strawberry festival last week, at which 2,000 children were present. Five thousand baskets of strawberries, 5,000 cakes, and 120 gallons of ice cream were consumed.

Incidents and Accidents.

—A young wife, aged sixteen, has just presented her husband-god eighteen, with three bouncing boys.

—The late John Clark, of Baltimore, left the greater part of his estate of \$730,000 to St. John's Methodist Church of that city, which is located in the same building where he resided.

—Artists of association have been fled for Free Will Baptist College, to be located in Randolph county, Indiana, with a capital of \$50,000, to be free to all sexes and races.

—The believers in the approaching millennium are now at Warehouses, 100,000 acres of heavily timbered land to furnish their supply.

—Rochester, N. Y., has an organization of flowerers. One of them made up his mind to get married again, and the rest of them in the number of eight, never to present them with a silver tea set and their well wishes.

—Wells, Fargo & Co., send regularly three coaches every other day from Juilee to Denver, one hundred and eighty-two miles. These have military protection, as it is necessary to insure their safety.

—Mr. and Mrs. E. A. Stevens, of Hoboken, N. J., gave a strawberry festival last week, at which 2,000 children were present. Five thousand baskets of strawberries, 5,000 cakes, and 120 gallons of ice cream were consumed.

—It is reported that one of the largest railroads of the country has adopted the custom of paying its laborers the price of a barrel of flour per week, as the most just and satisfactory mode of measuring the value of labor.

—While Robert H. Barton, of Somerville, Massachusetts, was being shaved in a barber's shop at Boston, last week he suddenly jumped from the chair to secure his horse, which was moving, when the razor completely severed his nose from his face.

—The Pennsylvania oil wells are at their lowest ebb, the whole State producing less than 6,000 barrels per day. At Philadelphia lately 2,000 sheets of stock which once brought a large premium and represented an aggregate of \$50,000, were sold for \$10.

—Cuthbert Evans, the leading State's Attorney, has foreseen that he will be re-elected a few weeks before Mr. Lincoln's death, and wrote to him to come and stay among the Shakers a few weeks. The letter is now on file in the State Department.

—A New York court has decided that the printed statement on a railroad ticket will be held if it is "legally issued," legal, and that if the passenger detaches it, he forfeits the privileges to which the coupon, if left upon the ticket, will entitle him.

—The great class of Boston Common—men of the New England metropolis—have been devastated by worms. A few years ago a Mayor placed a colony of squirrels in the park, which have driven away the birds, and the park is now abandoned to the worms.

—The Observatory at Cincinnati, built by Mr. and Mrs. James, twin daughters of Harvey Snow, of Mattapoisett, Mass., nearly four years old, were poisoned to death last week, with a dose of arsenic. When discovered that they had swallowed the poison, the mistake was made of trying to expel it by cathartic remedies, with a fatal result.

—A man at Nahant has obtained ten dollars damages against the Atlantic Railroad on account of a locomotive which passed by a change in the timetable of the road. It was claimed that sufficient notice of the change was not given, although both the railroads declared the fact had been posted two days previous according to custom.

—In Julesburg, the new western terminus for traffic on the Union Pacific Railroad is about 100 miles west of Denver, two miles in length, by the request of the owners of the property on the street. The whole expense is to be borne by the railroads.

—The city of Philadelphia has within a few days ordered the Nicholson government to take place in 1867. In revising his work he found that he had overlooked figures, which add something like a quintillion to the sum total. The experiment is that the cutters bring jugs and bottles to get their cabbage plants in!

—In Julesburg, the new western terminus for traffic on the Union Pacific Railroad is about 100 miles west of Denver, two miles in length, by the request of the owners of the property on the street. The whole expense is to be borne by the railroads.

—A London woman writes: "It is untrue that Her Majesty the Queen declines to meet the Sultan of Turkey on the occasion of his approaching visit to England, on the ground that he is a 'harem-scum' fellow."

—In Newmarket, England, after a race, a Marchioness, who is as devoted to her husband as a woman can be, followed him, dancing in the evening with the jockey who rode the winning horse, allowing him to clasp her waist and walk at the top of his speed!

—Among the many odes to the "Dominion of Canada" is one having the following rhythmic character:

"Our voice upward to the sky,
Footsteps tramping, toll,
Our steps to the ground."

—The Albany *Argus* doubts the death of Rev. S. M. Merrill by drowning. The reverend gentleman fell into the Five Mile River, N. Y., where the water was shallow, refused all assistance and swam away from the boat. His body has not been recovered, and it is said he planned to make a similar exploit some years ago, but it failed. Merrill pursues Merrill very closely, and involves a young lady at North Adams.

—The New Orleans *Picayune* says: "During the rain storm on Thursday afternoon, a young woman, while riding in a Dryades street car, was suddenly seized with a violent pain in the abdomen, which she described as being like a lightning bolt. She was soon relieved, and then her heart was the result."

—Mr. Macaulay, manager of the Atheneum at Detroit, together with several other parties in Detroit, has purchased the old Railroad Hotel property, on Campus Martius, for \$50,000, and proposes to put up an open house there, and to let it for \$100,000, capable of seating 2,500 persons, to be completed next year.

—The all-important question at least to stockholders, whether the Atlantic cable would pay, has been answered by Captain C. W. Ostrom, who, in a communication to the London *Times*, states that the estimated receipts for the first year will reach £450,000, or within £150,000 of the original cost of the last laid cable.

—A terrible accident occurred in Ballston, New York, last Wednesday. A lad named Miller went into the field to catch a horse, and while returning his arm became entrapped with the halter, when the horse started and dragged the little fellow and the field fence after him. The horse, at sight and rushed to the rescue, but when he reached the scene, his boy's brains were dashed out, the left side of his face was broken in, and both arms and legs were broken.

—Sunday afternoon, a man stepped into a street-car in Buffalo, but the window of the car and glass apparently in great haste to reach his store. A neighbor shouted at him as he passed, inquiring if he expected to find a customer waiting. "Oh," replied the merchant, "I have a boy here to help me." The boy, who was the partner in our concern, and as there are only two chairs in the counting-room I want to be on hand for his work.

—They have a swimming school in Philadelphia. It is described as a large, airy, well lighted room, which is divided into two parts, one for boys and girls, and the other for men and women. The water is clear and the air is pure.

"WILLY WISER," the great rabbi for *Boys and Girls, Young Folks, etc.* is C. B. Josslyn, of Malden, Mass., formerly a Unitarian clergyman.

MR. GREENLEE is a good citizen in the Commonwealth of Massachusetts and the World makes the point that he has got in that house, as he is on his legs all the time.

QUEEN VICTORIA was expected in Paris, has probably arrived there already; her visit is to be strictly (*in reg*), so the papers and authorities will refrain from tasting any notice of her.

This well-known French financier, M. Pierre Larivière, President of twelve or fifteen joint stock companies, the aggregate capital of which is \$74,000,000. His influence in Paris may be imagined.

CORRY JAMES, alias Samantha Proctor the notorious astrologist, has sued a leading grain warehouseman of Chicago for \$10,000 damages, claiming he has been guilty of a palpable case of black mail.

SARAH GRANGER is still at Boston, nearly ninety years of age. She was formerly a pinner and publisher. He established the first public news room in Boston, and subsequently became a breeder.

M. THOMAS has hard work to alay the majority who has caused by having his picture taken with the Meiklen. There is greater demand for them than ever in Paris, and Brady has reproduced the picture in New York.

A question asked Mr. Beecher the other day what he intended to do with the characters of his novel now running in the *Leader*. He said he was bothered to know, but "felt tempted to get up a grand railroad accident and kill them all off at once."

George CHURCHILL, the artist-humorist, has been granted a pension of \$475 per year by the British Government in acknowledgement of his genius. He is nearly fifty years old, and, whether needing a pension or not, the acknowledgment comes late.

The New York *Citizen* learns that "Brother Ben" (Wood) got hit with a red hot poker (ten days ago)—a draw past "fat to the tune of \$15,000—the winner being a prominent member of the Committee. It was a hand of three aces against three queens that commanded the heavy business.

Poog Part IX. is a strong man physically, but not spiritually. According to the New York *World's* special cable telegram "The new world record in the weight of the silver model of the Hungarian finta with its cargo of 50,000 gold dollars." It was a magnificent present, but its total weight at the least calculation, must have been 700 pounds.

BIRGMAN YOUNG was 66 years old on the first of June. Miss Eliza R. Snow, the most successful, improved the occasion as follows:

O God, bless Brigham Young;
And all that bless him;
We thank thee for thy pray;
Who, rising to oppose him,
Contend with those who
O God, bless Brigham Young;
Protect him, and give him power to live
Until he gives back our dead.

Domestic Paragraphs.—There is to be a mosquito show in New York.

—Salmon can be bought at Stika for two cents a pound.

—The Pittsburghers complain that their ice has a strong taste of petroleum.

—The entire cost of the Nicolson paving given out or proposed in Memphis, is \$1,000,000.

—A Lincoln monument, one hundred and five feet high, is to be erected at Atlanta.

—The great secret of success in business is to get "the ring of the true metal"—*Primer's Zinc*.

—The Indians of Montana are said to have 25,000 warriors in the field, and have an idea that they can exterminate the whites.

—It is, it is, increasing so rapidly in population that it now ranks next to Erie among the cities of Northwestern Pennsylvania.

—Tolofo has been sued by Nicholson the pavement patentee, for a royalty of sixteen cents per yard on its wooden pavements, amounting to \$8,000.

—The Wynona (Kans.) *Pioneer* publishes three marriage notices, and appends the following apt, terse and expressive comment to each of them: "No cake."

—Many of the handsome bridal presents exhibited at a so called fashionable wedding reception in New York are hired or leased who make quite a living out of it.

—California papers say that San Francisco sends away forty tons of silver and six tons of gold every month, and that the State exports 10,000 tons of copper annually.

—At a quarry in Massillon, Ohio, a few days ago, a stone was taken out by machinery weighing 117 tons. It was sixty long, seven wide and four feet thick.

—The Salt Lake *Velvet* says there are eighteen militiamen on guard at San Pedro, who compel the settlers to pay for the security at the rate of \$2 per day for each one of the eighteen.

—A match is on the tapis between the celebrated running horse Kentucky, and the famous grey stallion, the latter to run for four miles while the former trots three miles under saddle.

—The city of New York has to raise for the current year the pleasant little sum of \$34,000,000, or about five million dollars more than last year and considerably more than double the sum required in 1892.

—The New York street cars are resort to aid to midnight by drunken men, who sit or lie and ride back and forth till morning or the drunk is worn out, and pay the drivers extra for the privilege.

—The wool consumed in one year by the New York Central Railroad amounts to over 160,000 cords—which at 40 cords per acre, would require at least 4,000 acres of heavily timbered land to furnish this supply.

—Rochester, N. Y., has an organization of widowers. One of them made up his mind to get married again, and the rest of them to the number of eighteen, met to present them with a silver tea set and their wed-wings.

—Wells Fargo & Co., send regularly three coaches every other day from July 1st to Aug. 1st to Denver, one hundred and eighty-two miles. These have military protection, as it is necessary to insure their safety.

—Mr. and Mrs. E. A. Stevens of Hoboken, N. J., gave a strawberry festival last week, at which 2,000 children were present. Five thousand baskets of strawberries, 5,000 cakes, and 120 gallons of ice cream were consumed.

—It is reported that one of the largest railroads in the country has adopted the custom of paying its laborers the price of a barrel of flour per week, as the most just and satisfactory mode of measuring the value of labor.

—When Robert H. Barton, of Somerville, Massachusetts, was being shaved in a barber's shop at Boston, last week he suddenly jumped from the chair to secure his horse, which was moving, when the razor completely severed his nose from his face.

—The Pennsylvania oil wells are at present the best, the whole State yielding less than 1,000 barrels per day. Philadelphia largely, 2,000 barrels of stock, which brought a large premium and represented an aggregate of \$50,000, were sold for \$10.

—A young German, in Terra Haute, Ind., committed suicide on Thursday, the 4th, by hanging. His person were found \$4,000 and a letter explaining that an unhappy marriage was the cause of his death.

—Richard Dammem, bookkeeper for Nicholls, Krite & Co., St. Louis, committed suicide on Wednesday, the 10th, in consequence of the discovery of a series of embezzlements, amounting to \$2,500 or \$3,000.

—A boy at Providence, R. I., nineteen years old, swam a distance of three quarters of a mile the other day, towed by a rope from his wrist a boat twelve feet long, containing six men in less than three-quarters of an hour.

—A lady in East Brooklyn, N. Y., lost her Valentine last week before Mr. Lincoln's death, and wrote to him to come and stay among the Sleekers a few weeks. The letter is now on file in the State Department.

—The great class of Boston Communists—the pride of the New England metropolis—are being devastated by worms. A few years ago a Mayflower colony of squirts in it, which have driven away the birds, and the park is now abandoned to the worms.

—The Observatory at Cincinnati, built by the energy and influence of the late Professor Mitchell, has fallen into a state of decay, and its splendid instrument which was once the pride of the country, serves now only to amuse idle spectators who want to look at the man in the moon.

—In some of the towns in Western Massachusetts a thriving business is carried on in the sale of cabbage plants. The customers are said to call at a very early hour in the morning, and the most enterprising in the transact is that the enterprisers bring jugs and bottles to get their cabbage plants in!

—A man at Nalham has obtained ten dollars damages against the Eastern Railroad on account of the failure of the company to change in the timetables of the road. It was claimed that sufficient notice of the change was not given, although half-bills declaring the fact had been posted two days previous according to custom.

—At Inglewood, the new western terminus for traffic on the Union Pacific Railroad is miles from the Union Pacific station. We were told that all route to the plains until the track arrives at the east base of the mountains. Denver can now be reached from this point, by stage in two days.

—The city of Philadelphia has within a few days cleared the Nicholson pavement from a street, two miles in length, by the request of the owners of property on the street. The whole expense is \$20,000, and it is believed that it will add nearly half a million to the value of real estate on the street.

—At the end-of-the-world, Dr. Cummings made a terrible error in his calculations concerning the total destruction to take place in 1867. In revising his work, he found that he had overlooked figures which added up to give a diminution of years to the race with the comet.

—At Newmarket, England, after a race, a Marechalis, who is devoted to betting on the jockey who rode the winning horse, allowed the poison the mistake was made of trying to expel it by cathartic remedies, instead of enetic remedies, with a fatal result.

—A London wag remarks: "It is untrue that Her Majesty the Queen declines to have a cigarette in Turkey, but she does not like the smell of the smoke of the pipe of Prince Albert." This was one of the sacerdotal烟云s he received.

—At the Paris Exposition a balloon in the form of a perfect sphere and about 210 feet in circumference, is held by a cable and makes hourly trips upward, in the same manner as worked in a model at the last exhibition by the American Institute, and was shown on a large scale at the Paris World's Fair.

—At the Paris Exposition a balloon in the form of a perfect sphere and about 210 feet in circumference, is held by a cable and makes hourly trips upward, in the same manner as worked in a model at the last exhibition by the American Institute, and was shown on a large scale at the Paris World's Fair.
